FORWARD-LOOKING STATEMENTS

This Offering Circular includes “forward-looking statements” within the meaning of the federal and state securities laws. Statements about NCP and its expected financial position, business and financing plans are forward-looking statements. Forward-looking statements can be identified by, among other things, the use of forward-looking terminology such as “believes”, “expects”, “may”, “will”, “should”, “seeks”, “pro forma”, “anticipates”, “intends”, “projects”, or other variations or comparable terminology, or by discussions of strategy or intentions. Although NCP believes that the expectations reflected in its forward-looking statements are reasonable, NCP cannot assure any Investor that NCP’s expectations will prove to be correct. Forward-looking statements are necessarily dependent upon assumptions, estimates and data that may be incorrect or imprecise and involve known and unknown risks, uncertainties and other factors. Accordingly, prospective Investors should not consider NCP’s forward-looking statements as predictions of future events or circumstances. A number of factors could cause NCP’s actual results, performance, achievements or industry results to be materially different from any future results, performance or achievements expressed or implied by NCP’s forward-looking statements. These factors include, but are not limited to: changes in economic conditions in general and in NCP’s business; changes in prevailing interest rates and the availability and terms of financing to fund NCP’s business; changes in NCP’s capital expenditure plans; and other factors discussed in this Offering Circular. Given these uncertainties, prospective Investors should not rely on NCP’s forward-looking statements in making an investment decision. NCP disclaims any obligation to update Investors on any factors that may affect the likelihood of realization of NCP’s expectations. All written and oral forward-looking statements attributable to NCP, including statements before and after the date of this Offering Circular, are deemed to be supplements to this Offering Circular and are incorporated herein and are expressly qualified by these cautionary statements.

Although NCP believes that the forward-looking statements are reasonable, prospective Investors should not place undue reliance on any forward-looking statements, which speak only as of the date made. Prospective Investors should understand that the factors discussed under “**RISK FACTORS**” could affect NCP’s future results and performance. This could cause those results to differ materially from those expressed in the forward-looking statements.

SUMMARY OF THE OFFERING

This summary is provided for the convenience of potential Investors. It must be read in conjunction with, and is qualified in its entirety by, the more complete statements made in this Offering Circular, including the Audited Financial Statements. In particular, potential Investors are urged to review the discussion under the heading “RISK FACTORS”. Certain capitalized terms referred to herein are defined elsewhere in this Offering Circular and in Appendix “A” entitled “Definitions”.

1. **Issuer.** NCP, the issuer of the Certificates, is an Illinois not for profit corporation affiliated with The Evangelical Covenant Church (the “Church”). NCP’s principal offices are located in Chicago, Illinois. See “HISTORY AND OPERATIONS” herein.
2. **Description of the Certificates.** NCP is offering unsecured debt securities in the form of Certificates at various interest rates, which are not secured by particular loans to specific borrowers. The Certificates offered are: the 5-Year Fixed Rate Renewable Certificates, which mature five (5) years from the date of issuance and earn a fixed rate of interest; the 30-Month Fixed Rate Renewable Certificates, which mature thirty (30) months from the date of issuance and earn a fixed rate of interest; the Variable Rate Certificates, which may be redeemed by the holder upon thirty (30) days demand and earn a variable rate of interest; the Demand Investment Accounts, which may be redeemed by the holder upon thirty (30) days demand and earn a variable rate of interest; the Individual Retirement Account (“IRA”) Certificates, which are available for investment in the holder’s NCP Individual Retirement Account and earn a variable rate of interest; the Health Savings Account (“HSA”) Certificates, which are available for investment in the holder’s NCP Health Savings Account and earn a variable rate of interest; and the 403(b) Certificates, which are available for investment in the holder’s NCP 403(b) retirement account and earn a variable rate of interest. As of December 31, 2017, NCP’s total Certificates payable equaled \$334.3 million. See “DESCRIPTION OF THE CERTIFICATES” herein.
3. **Risk Factors.** The purchase of the Certificates is subject to certain described risks. See “RISK FACTORS” herein, which Investors are urged to read carefully.
4. **Use of Proceeds.** The proceeds of the offering will be added to NCP’s general funds and primarily used to make loans to member churches to be used for the construction, renovation and acquisition of church facilities and real estate and other mission related activities of Church-affiliated entities. Loans are also made to other entities affiliated with the Church. See “USE OF PROCEEDS” herein.
5. **Loans.** NCP makes both short-term (demand) loans and long-term loans to member churches, conferences and other Denominational entities. NCP also has 18 lines of credit with member churches, conferences and other Denominational entities. As of December 31, 2017, NCP’s total loans outstanding equaled \$271.9 million (net of allowance for doubtful accounts). See “DESCRIPTION OF NCP’S LENDING ACTIVITIES” herein.
6. **Management.** The affairs of NCP are managed by its Board of Directors that meets at least on a quarterly basis. The day-to-day operations of NCP are the responsibility of its executive officers. The voting members of the Executive Board of the Church are the corporate members of NCP who elect the directors of NCP. See “MANAGEMENT AND GOVERNANCE” herein.

RISK FACTORS

The purchase of the Certificates offered herein involves a number of risks. In addition to the factors set forth elsewhere in this Offering Circular, prospective Investors should carefully consider the following risk factors.

1. *Unsecured Obligations.* The Certificates are unsecured obligations of NCP. Interest and principal repayments on the Certificates, therefore, are dependent solely upon the financial condition of NCP.
2. *No Sinking Fund or Trust Indenture.* No sinking fund or trust indenture has been nor will be established by NCP to provide for the repayment of the Certificates. There is no assurance that funds will be available at the time of a Certificate's maturity.
3. *Maturing Certificates.* A portion of NCP's previously issued 5-Year Fixed Rate Renewable Certificates and 30-Month Fixed Rate Renewable Certificates have a remaining maturity of less than one year. The aggregate annual principal maturities of the 5-Year Fixed Rate Renewable Certificates outstanding as of December 31, 2017, and maturing in calendar year 2018 equal \$20.5 million. The aggregate annual principal maturities of the 30-Month Fixed Rate Renewable Certificates outstanding as of December 31, 2017, and maturing in calendar year 2018 equal \$6.62 million. Since NCP did not offer or sell 30-Month Fixed Rate Renewable Certificates prior to March 1, 2015, reinvestment information is somewhat limited from a historical perspective. However, for the year ending December 31, 2017, 69% of NCP's 30-Month Fixed Rate Renewable Certificates were renewed at maturity for an additional term. It has been NCP's historical experience that more than 50% of its maturing 5-Year Fixed Rate Renewable Certificates have been reinvested at maturity. If demands for payment of NCP's Certificates upon maturity exceed prior experience or the availability of funds from other sources are not as anticipated, an adverse effect on NCP's financial condition could result. The holder of a Certificate may find that at the maturity of that Certificate NCP does not have sufficient funds to pay the Certificate. There is no assurance that purchasers of additional securities will be available at the time of a Certificate's maturity. As of December 31, 2017, NCP has \$13.1 million outstanding in 30-Month Fixed Rate Renewable Certificates, \$6.62 million of which mature in 2018.
4. *Certificate Repayment Dependent upon Loan Repayments.* NCP is dependent upon timely repayment of its loans to member churches, conferences and other Denominational entities in order to assure repayment of a Certificate

and payment of interest thereon. Thus, the ability of NCP to meet its interest and principal payments on the Certificates is dependent upon the future operations of the member churches, conferences and other Denominational entities to which NCP has made loans.

5. *Certificate Repayment Dependent upon Contributions to Borrowers.* A loan by NCP to a member church is not personally guaranteed by any individual constituents of that church. The timely repayment of such a loan is dependent upon the ongoing success of that member church. In most instances, the ability of member churches to repay loans will be dependent upon contributions they receive from their constituents. Due to various national economic factors, member churches may experience a reduction in these contributions, which may negatively impact member churches' ability to repay their loans in accordance with the current loan terms.
6. *Accommodation of Loan Defaults.* NCP originated loans are made exclusively to member churches, conferences and other Denominational entities, some of which may not be qualified to secure commercial financing from an institutional lender. In view of the relationship of NCP with its borrowers, NCP may be willing in certain instances to accommodate late payments, extend the term of a loan, or otherwise modify the loan terms. Significant increases in Loan Delinquencies or accommodations made by NCP with certain borrowers could impair the ability of NCP to pay its Certificates when due.
7. *Marketability of Loan Collateral.* The church property and improvements given as collateral for loans may be a single purpose building and in the event of a default on a loan made by NCP, the marketability of a specific church property and improvements thereon may be limited. In addition, fluctuations in property values may result in a loan loss to NCP in the event of a foreclosure action. NCP has no current policy which requires an appraisal on the church's real property as part of the lending criteria.
8. *Loan Delinquencies.* As of December 31, 2017, of the 317 loans outstanding, NCP had zero loans that were delinquent as to payment of principal and/or interest. See "DESCRIPTION OF NCP'S LENDING ACTIVITIES – Loan Delinquencies" herein.
9. *Loan Marketability.* There is no quoted market for NCP's loans to member churches, conferences, and other Denominational entities, and there is no intent by NCP to create such a market. Therefore, NCP may not have the ability to sell such loans to third parties, which could affect NCP's liquidity.
10. *Limited Class of Investors.* The offer and sale of Certificates is limited to persons or entities who are, prior to receipt of this Offering Circular, (a) members of, contributors to, or participants in The Evangelical Covenant Church, including any program, activity or organization which constitutes a part of The Evangelical Covenant Church, its conferences or its member churches; (b) affiliates of The Evangelical Covenant Church, including any program, activity or organization which constitutes a part of The Evangelical Covenant Church, its conferences or its member churches; (c) beneficiaries or successors in interest to those listed in (a) or (b) above; (d) relatives of individuals listed in (a) above; (e) trusts or accounts controlled by or for the benefit of individuals listed in (a) above; or (f) other persons purchasing Certificates for the benefit or on behalf of individuals listed in (a) above (collectively, "Investors").
11. *NCP's Certificate Redemption Rights.* A Certificate may be redeemed by NCP at any time prior to its maturity upon sixty (60) days written notice to the holder thereof, and payment of principal and accrued interest to the date of redemption.
12. *Larger Loans to Newer Churches.* Loans from NCP to member churches in recent years have tended to be larger in dollar amounts per church than in previous years and a number have been made to churches that are relatively new in their corporate existence. Thus, these larger loans to newer churches carry an additional risk factor as to the church's ability to service the debt obligation. A significant change in economic conditions could negatively impact the income of a member church since its principal source of revenue is from contributions of its

constituency. Additionally larger loans with greater cash outlay could impede NCP's future ability to diversify its loan portfolio.

13. *Loans to Denominational Entities.* Loans from NCP to Denominational entities (which are defined herein as those entities affiliated with the Church which are not member churches or conferences) are likely to be larger in dollar amounts, and are not always secured by a pledge of real or personal property. Moreover, many of the Denominational entities borrowing from NCP have other obligations that encumber the real or personal property owned by those entities. These larger loans with greater cash outlay could impede NCP's future ability to diversify its loan portfolio.
14. *Senior Secured Indebtedness.* NCP has the authority to create and issue new debt securities from time to time at such rates and on such terms as its Board of Directors deems advisable, including debt securities which may have priority as to repayment senior to the Certificates. If such debt securities are secured by assets of NCP in such manner as to have a priority claim against any of the assets of NCP over and above the Certificates, the amount of such debt securities shall not exceed ten percent (10%) of the tangible assets of NCP. See "FINANCING AND OPERATING ACTIVITIES – Senior Secured Indebtedness" herein.
15. *Change in NCP's Operations.* NCP is not obligated to continue offering debt securities, or to continue its current operations or its existence as a not for profit entity. Any such change in operations could have a negative impact on its ability to pay the Certificates.
16. *Interest on Certificates Taxed as Ordinary Income; Imputed Interest.* The purchase of Certificates is not a donation to a religious organization and is not eligible for any tax deduction as a charitable contribution. Interest paid or accrued on the Certificates, other than investments held in an Individual Retirement Account, a Health Savings Account, or a 403(b) Certificate will be taxable as ordinary income to an Investor. If interest paid on a Certificate is below market interest, the Internal Revenue Service may impute interest income up to the market interest level. See "TAX MATTERS" herein.
17. *NCP's Liability for Church-Related Claims.* NCP is a separate not for profit corporation, and therefore not generally liable for claims against the Church and its other affiliated entities. However, it is possible that claims may be made against NCP in relation to matters associated with the Church or its other affiliates.
18. *Securities Registration.* Although securities issued by charitable organizations are exempt from the registration requirements of the Securities Act of 1933, as amended, and from the registration provisions of some state securities laws, in other states securities such as the Certificates issued by NCP must be registered prior to their offer or sale. In certain states in which the securities are exempt, an issuer is required to file certain documentation with the state securities authority in order to obtain such exemption. Additionally, in certain states the agents engaged in sales activities and/or the issuer itself must be registered pursuant to agent/salesperson and broker/dealer regulations. NCP has taken the necessary steps to file the required documentation in accordance with such securities laws in the states in which it offers and sells securities. However, changes in the various state securities laws in which NCP does business, as well as changes in federal securities laws, may impose costly and overly burdensome restraints upon the activities of NCP, such that NCP would be unable to continue its current operations.
19. *Certificates Are NOT Insured.* NCP's Certificates are not insured by any governmental agency or private insurance company, including the FDIC, or any state bank, insurance fund, or any other governmental agency.
20. *Church Not Obligated.* NCP is solely responsible with respect to its obligations under the Certificates, and neither the Church nor any member churches, conferences, or Denominational entities, other than NCP, are responsible for any obligations under the Certificates, including without limitation payment of interest and repayment of principal for Certificates at maturity.

21. *Redemption Due to Personal Emergency.* NCP cannot assure that it will honor requests for early redemption of a Certificate due to personal or financial emergency of the holder, and it is not obligated to do so. See “REDEMPTION DUE TO A PERSONAL EMERGENCY” herein.
22. *Market Risk.* NCP’s liquid assets invested in readily marketable securities are subject to various market risks which may result in losses if market values of investments decline.
23. *Geographic Concentration of Loans.* There are risks related to geographic concentration of loans to member churches and other Church-affiliated entities within a limited region, such that changes in economic conditions of that region could affect the ability of the member churches and other Church-affiliated entities, as a group, to repay the loans. As of December 31, 2017, NCP’s total loans outstanding equals \$274.2 million. Although NCP has no geographic restrictions on where loans are made other than where member churches or other Church-affiliated entities are located, aggregate loans equal to or in excess of 6.58% of total balances of loans outstanding are located in the following states:

State	Loans Outstanding	% of Total	# of Loans
California	\$ 71,597,420	26.11%	55
Illinois	\$ 53,892,583	19.65%	65
Minnesota	\$ 21,357,955	7.79%	29
Colorado	\$ 19,163,498	6.99%	12
Washington	\$ 18,041,133	6.58%	24
Total	\$ 184,052,589	67.12%	185
Total Loans	\$ 274,214,637	100.00%	317

24. *Environmental Matters.* There is potential environmental liability associated with the loans made by NCP. With respect to loans involving the acquisition of property, NCP requires environmental surveys. However, if environmental contamination is found on or near the property securing a loan at any time after NCP makes such loan, NCP’s security for the loan could be impaired. In addition, changes in environmental regulations could require the borrower to incur substantial unexpected expenses to comply with such regulations, and this could impair both the value of the collateral and the borrower’s ability to repay the loan.
25. *Construction Loan Risks.* In such cases where a loan is used for construction, the borrower may be subject to risks associated with such construction, which could have an adverse effect on a borrower’s ability to repay its loan. Construction risks may include, without limitation, cost overruns, completion delays, errors and omissions in construction documents, lack of payment and performance bonds or completion bonds, all of which may have a significant impact on the cost of the new construction, or the borrower’s ability to complete the project in accordance with the construction documents.
26. *Liquidity.* NCP’s 5-Year Fixed Rate Renewable Certificates mature five (5) years from the date of issuance. NCP utilizes Certificate proceeds, in part, to fund loans that typically mature in twenty (20) years. NCP is dependent in part upon its loan repayments to fund redemption of its renewable Certificates. In addition, new Certificate sales are necessary to fund repayment of maturing Certificates. For the years ending December 2013 through December 2017, 77%, 62%, 83%, 82%, and 79% respectively, of NCP’s 5-Year Fixed Rate Renewable Certificates were renewed at maturity for an additional term. NCP’s 30-Month Fixed Rate Renewable Certificates mature thirty (30) months from the date of issuance, and were first offered and sold in March 2015. For the year ending December 2017, 69% of NCP’s 30-Month Fixed Rate Certificates were renewed at maturity for an additional term. However, there are no assurances that this level or any other level of renewal will continue. In the event that NCP experiences unusually adverse fluctuations in (i) loan re-payments; (ii) new Certificate sales; and/or (iii) Certificate renewals, such fluctuations could have an adverse impact on NCP’s ability to repay maturing Certificates.

27. *Non-transferability of Certificates.* No public market exists for the Certificates and none will develop. Therefore, the transferability of the Certificates is limited and restricted.

HISTORY AND OPERATIONS

National Covenant Properties (also referred to herein as “NCP”) was incorporated as an Illinois not for profit corporation in 1970 for the purpose of making loans to member churches, conferences and other Denominational entities of The Evangelical Covenant Church (also referred to herein as the “Church”). Loans to a member church are typically secured by a mortgage or deed of trust on the Church’s real property, an assignment of leases and rents and a security agreement on the church’s personal property. Loans to other Denominational entities of the Church may or may not be secured by a pledge of collateral. The principal source of funds utilized to make these loans is the sale of the Certificates by NCP to members of, contributors to, participants in and affiliates of the Church. The Certificates are not secured by particular loans to specific borrowers.

During 2007 and thereafter, NCP expanded its operations to provide a broader range of real estate services to the Church, Denominational entities, conferences and member churches. These services had previously been provided by staff employed by the Church.

NCP currently has \$334.3 million in Certificates outstanding to Investors residing in fifty (50) states and the District of Columbia. The principal place of business of NCP is located at 8303 West Higgins Road, Chicago, Illinois 60631. Its telephone number is (800) 366-6273.

NCP is recognized as exempt from Federal income taxation pursuant to Section 501(a) of the Internal Revenue Code of 1986, as amended, (the “Code”) as an organization described in Section 501(c)(3) of the Code as part of the group exemption ruling issued by the Internal Revenue Service to The Evangelical Covenant Church.

The Church

The Church was founded in 1885 for the purpose of promulgating evangelistic Christianity. The Church is an Illinois not for profit corporation, which has been issued a group exemption from Federal income taxation pursuant to Section 501(a) of the Code, as amended, as an organization described in Section 501(c)(3) of the Code. The corporate membership of the Church is comprised of approximately 810 member churches located throughout the United States and Canada, with approximately 133,900 individual members. The member churches are separate not for profit corporations or religious associations of the state or province in which they are located whose membership is composed of the individual members of the church congregation. The member churches are represented at the Church’s Annual Meeting by delegates from each member church. These churches are administratively organized into regional conferences, the number and boundaries of which conferences are determined by the Church.

Each regional conference is incorporated as a not for profit corporation whose membership is composed of the member churches belonging to that specific conference. Conferences own various organizations therein located, such as conference centers and Bible camps.

The Executive Board of the Church coordinates and implements the common mission of the Church as developed and articulated by the Annual Meeting of the Church, the Church’s Constitution and Bylaws and the Strategic Planning Process of the Church. Denominational ministries of the Church are more fully described at the Church’s website, which can be found at www.covchurch.org.

NCP’s Audited Financial Statements contained herein indicate the dollar amounts outstanding in loans receivable attributable to regional conferences and member churches, and also to other Denominational entities (as set forth in the Audited Financial Statements under the caption “Loans Receivable”).

THE CHURCH, AND ITS RELATED BOARDS AND MINISTRIES, MEMBER CHURCHES, CONFERENCES AND THE DENOMINATIONAL ENTITIES (EXCLUSIVE OF NCP) DO NOT GUARANTEE NCP'S OBLIGATION TO REPAY THE CERTIFICATES ISSUED PURSUANT TO THIS OFFERING CIRCULAR.

USE OF PROCEEDS

Proceeds received from the sale of the Certificates will be added to NCP's general funds. The general funds are used to make loans primarily to member churches, conferences and other Denominational entities, primarily for the purpose of financing capital improvement projects, including the purchase of facilities, the construction of new church facilities, and the remodeling of existing churches, and financing other mission related activities of Denominational entities. See "HISTORY AND OPERATIONS" herein. The proceeds may, however, be invested in certain marketable securities or investment accounts pending their utilization for NCP's activities. See "INVESTING ACTIVITIES – Investments" herein. As of the date of this Offering Circular, NCP has not committed all of the proceeds to be derived from this offering for any specific projects. In the normal course of its operations however, NCP is continuously making loan commitments based upon the availability of funds. The proceeds of this offering may be utilized to fund some portion of these loan commitments.

No underwriters are participating in this offering, and no underwriting discounts or commissions will be paid in connection with the sale of the Certificates. Sales of the Certificates will be effected solely through certain executive officers of NCP. All expenses of this offering, including printing, mailing, attorneys' fees, accountants' fees, and securities registration fees, will be borne by NCP, and are not expected to exceed one percent (1%) of the offering.

NCP's sale of its Certificates is primarily related to its need for loan funds and its desire to maintain reasonable liquidity. NCP does not presently require, nor does it anticipate that it will require, any proceeds of this offering to meet the interest payments on its outstanding Certificates. However, it is anticipated that NCP may be required to utilize a portion of the proceeds of this offering along with its existing general funds to meet principal repayments on its outstanding Certificates. See "FINANCING AND OPERATING ACTIVITIES" herein.

FINANCING AND OPERATING ACTIVITIES

The repayment of principal and the payment of interest on the Certificates are dependent upon NCP's financial condition. The primary source of funds available to NCP includes receipts from the sale of new Certificates and from cash flow generated from NCP's outstanding loans and other investments. In prior years, NCP has been able to meet principal and interest requirements on its outstanding Certificates from its available funds, and there has never been a default in NCP's payment of principal or interest to an Investor. NCP has a fiduciary obligation to repay the Certificates, and NCP will not intentionally take any action that jeopardizes its ability to repay the Certificates. The following information describes NCP's sources of funds and financial condition.

Outstanding Certificates

One of NCP's primary means of obtaining the funds necessary to conduct its operations is through the receipt of proceeds from the sale of its Certificates. The following is a description of NCP's outstanding Certificates as of December 31, 2017, 2016, and 2015 (all interest rates stated are as of December 31, 2017):

Senior Secured Indebtedness

The Certificates are issued on a parity basis with one another and with respect to all other NCP debt securities previously issued and outstanding, and are a general obligation of NCP. Senior Secured Indebtedness is any debt or debt securities incurred or issued by NCP and secured by assets of NCP in such manner as to have a priority claim against any of the assets of NCP over and above the Certificates. To date, NCP has not incurred or issued any Senior Secured Indebtedness, and has a Board policy that it will not incur or issue Senior Secured Indebtedness in an amount which exceeds ten percent (10%) of the tangible assets of NCP.

As of December 31, 2017, the allowance for doubtful accounts against outstanding loans is \$2.3 million. NCP's loans are generally secured by a mortgage or deed of trust on the borrower's real property, assignment of rents and a security agreement on the borrower's personal property, and are often also guaranteed by conferences, affiliates of the Church, the Church or third party churches, with the exception of the lines of credit as more fully described at "DESCRIPTION OF NCP'S LENDING ACTIVITIES – Lines of Credit" herein. The total loan principal due or scheduled for rate adjustment in the next five (5) years is set forth in Note 3 of the Audited Financial Statements herein.

DESCRIPTION OF NCP'S LENDING ACTIVITIES

Loan Processing

The general lending activities of NCP include the making of secured and unsecured loans primarily to member churches, conferences and Denominational entities primarily for the purpose of providing financing for (i) the acquisition and construction of new church facilities, (ii) renovations to existing church facilities, and (iii) other mission related activities of Denominational entities. Loans to entities not affiliated with the Church shall be made in accordance with NCP's policies, but shall in no event exceed ten percent (10%) of NCP's loan portfolio on a cumulative basis. Typically, a prospective borrower furnishes a loan application to NCP. The application is reviewed by NCP's staff, and the loan is then presented to and considered by NCP's Board of Directors (the "Board") for action. Factors to be considered by the Board with respect to a particular loan include the value and nature of the specific collateral (if any) to be pledged, the previous financial record of the borrower, potential for growth, the borrower's ability to service the debt, and the existence or non-existence of a Church and/or conference guarantee, if applicable. NCP has 317 loans outstanding as of December 31, 2017, 291 of which are to member churches and regional conferences outstanding in the gross amount of \$249.6 million, and 26 of which are to other Denominational entities outstanding in the gross amount of \$24.7 million.

Congregational Investment Generation Requirement

In a typical loan to a member church, the member church is required to generate investments in NCP's 5-Year Fixed Rate Renewable Certificates, 30-Month Fixed Rate Renewable Certificates, IRA Certificates or HSA Certificates through members and other eligible participants of that particular church congregation in an amount that is no less than

fifteen percent (15%) of the principal amount of the loan (the “Congregational Investment Generation Requirement”). Since the inception of NCP, the Congregational Investment Generation Requirement has been reduced from two-thirds (2/3rds) of the loan amount to the current fifteen (15%) percent. NCP reserves the right to modify the Congregational Investment Generation Requirement, in its sole discretion, from time to time. In particular, NCP has been willing to accept less than fifteen percent (15%) of the principal amount of the loan as the Congregational Investment Generation Requirement, but the interest rate of the loan is then adjusted upward according to a formula which determines the amount of the interest rate adjustment based upon actual NCP investments generated by the borrowing church.

Loan Policies

A typical loan is evidenced by a loan agreement with applicable note obligation and, in the case of a loan to a member church, generally secured by a mortgage or deed of trust and assignment of rents on the borrower’s real property and a security agreement on the borrower’s personal property. As of December 31, 2017, except for a line of credit to the Church which is unsecured and further described in this section under “Lines of Credit”, 100% of NCP’s outstanding loans were secured by real or personal property or a guaranty by a third party. In the case of such a mortgage or deed of trust, a mortgagee’s title insurance policy is issued to NCP by a recognized commercial title insurance company. In the case of new construction, the policy of NCP is to require loan proceeds to be funded through a construction money lender’s escrow where such is feasible. A payment reserve escrow equal to three (3) months of the principal and interest payment is generally required for loans which are guaranteed by the Church and/or a conference. NCP has no current policy which requires an appraisal on the borrower’s real property as part of the lending criteria. An acceptable environmental site assessment is required for all loans involving the acquisition of property.

The President of NCP can approve loans in principal amounts of \$50,000 or less, provided there is the security of a first mortgage or deed of trust and the borrower is a member church. The President can also approve unsecured loans to member churches in principal amounts of \$20,000 or less. In addition, the President of NCP is authorized to approve loans secured by NCP Certificates in an amount of \$250,000 or less, provided the borrower is affiliated with the Church (which includes member churches, regional conferences, camps, colleges, and other Denominational entities).

The policy of NCP is to limit the principal amount of loans to a single borrower to not more than 25.0% of NCP’s Net Assets (fund balance) as of January 1 of each year for borrowers owning and operating a single site. If the borrower has multiple sites that are not contiguous, the lending limit will not exceed 40.0% of NCP’s Net Assets (fund balance) as of January 1 of each year. There is one borrower, Bayside Covenant Church, Inc. (“Bayside”), headquartered in Roseville, California, which owns and/or operates multiple sites, that has loans outstanding with NCP (whereby Bayside is the principal obligor or a guarantor) as of December 31, 2017 of \$35.3 million. This loan amount exceeds 40.0% of NCP’s Net Assets by \$7.7 million, representing approximately 51.0% of NCP’s Net Assets as of January 1, 2018. In 2017, the Board of Directors of NCP voted to approve two new loans in the aggregate principal amount of \$17.3 million secured by new collateral appraised at \$30 million, thereby making an exception to its loan policy regarding loans to a single borrower, based upon such factors as (i) the appraised value of the collateral securing the loans; (ii) the missional significance that the loans support; and (iii) Bayside’s financial condition and strong base of support.

No portion of NCP’s loan portfolio is securitized or otherwise pledged to third parties.

(The balance of this page is intentionally left blank.)

Terms and Conditions of Loans – Long-Term Loans and Short-Term Loans

The material terms and conditions under which typical long-term loans to member churches, conferences and Denominational entities are made are as follows (note that exceptions thereto can be made at the discretion of the Board):

Term:	20 years
Amortization:	20 years
Rate Adjustment:	Every 3 years
Interest Rate:	Set by the Board (Rates on outstanding loans range from 4.0% to 5.5% and the weighted average interest rate was 4.52% at December 31, 2017.)

A typical short-term loan from NCP to member churches, conferences and Denominational entities is due on fifteen (15) days demand from NCP and is at an interest rate equal to the prime interest rate as published from time to time in the *Wall Street Journal* “Money Rates” section, and for all new and recent demand loans, the prime interest rate, but not less than four percent (4%). Older short-term loans may not have the interest rate floor of four percent (4%).

Other conditions to the granting of a loan by NCP may include the existence of adequate collateral and a negative pledge (prohibition) with respect to future borrowing. Loans to churches which receive financial support from the church’s regional conference require the guarantee of that conference and of the Church. Generally, the loan to value ratio required by NCP is eighty percent (80%). However, in consideration of NCP’s acceptance of a higher loan to value ratio, NCP may require a conference and/or the Church acting as a guarantor of a loan to execute a collateral pledge of that guarantor’s NCP 5-Year Fixed Rate Renewable Certificate(s) as additional collateral; or that the loan be secured by an Equity Pledge Fund according to the terms thereof.

In general, NCP’s long-term and short-term loans are secured by a first mortgage or deed of trust and assignment of rents on the borrower’s real property and a security agreement on borrower’s personal property. However, NCP may grant a loan under limited circumstances that is not secured, or that is subordinate to a prior loan.

SWAPS

Over the last few years, several borrowers have requested that NCP offer longer interest rate locks than what NCP has historically offered. To facilitate these requests, NCP has entered into several interest rate SWAP options with third parties to hedge the added interest rate risk. Borrowers that receive the longer fixed interest rate terms pay for the fees related to the SWAP options, or pay a premium interest rate to offset such fees. To date, NCP has entered into five (5) of these interest rate SWAP option transactions with expiration dates ranging from 2018-2022. For more information regarding SWAPS, see Note 6 of the Audited Financial Statements under the heading “Investment in SWAP Options”.

Covenant Development Corporation

Covenant Development Corporation (“CDC”), an affiliate of the Church, was established for the purposes of assisting member churches with the acquisition of church related property. In furtherance of this purposes, CDC typically purchased real estate with the intent to sell to a member church the portion of the acquired real estate parcel required by the member church for its facility and the balance of the real estate parcel to one or more third parties. Funding for CDC’s purchase, development and subdivision of such properties was largely made possible through loans with NCP. As a result of the national economic downturn from 2007 through 2010, which negatively impacted the value and liquidity of real estate as a whole, CDC was unable to sell its properties as anticipated. In December 2010, CDC transferred all of its assets to National Covenant Properties Land Company, LLC (“NCP Land Company”), an

Illinois limited liability company wholly owned by NCP, in return for NCP's release of all CDC obligations owed to NCP. These assets were booked by NCP at the then current appraised values less anticipated costs of sale. The properties transferred to NCP Land Company were located in Buffalo, Minnesota; Castle Rock, Colorado; Poway, California; Renton, Washington; Sacramento, California; and Westminster, Colorado.

Portions of the property located in Castle Rock, Colorado, Westminster, Colorado and Buffalo, Minnesota have been sold. NCP continues to actively market the remaining properties in these locations for sale. The property located in Sacramento, California was sold in 2017.

From the year 2010 through December 31, 2017, NCP has reduced the net asset carried value on remaining properties from \$9,010,991 to \$3,235,904. NCP has budgeted \$150,000 in 2018 for development and marketing costs associated with the remaining properties.

Loan Delinquencies

NCP characterizes loans as delinquent when payment of principal or interest thereon are delinquent ninety (90) days or more.

As of December 31, 2017, of the 317 loans outstanding, there were zero loans which were delinquent.

As of December 31, 2016, of the 311 loans outstanding, there were three (3) loans, whose aggregate principal balance represented 2.34% of total assets and 3.38% of loan receivables of NCP, which were delinquent in the amount of \$9,479,602 for a period of ninety (90) days or more. The principal and interest outstanding on these loans, in the aggregate, was \$9,645,141 as of December 31, 2016. As of December 31, 2016 a loan loss reserve of \$2.1 million was established.

As of December 31, 2015, of the 312 loans outstanding, there was one (1) loan, whose aggregate principal balance represented 0.2% of total assets and 0.3% of loans receivable of NCP, which was delinquent in the amount of \$741,697 for a period of ninety (90) days or more. The principal and interest outstanding on that loan, in the aggregate, was \$745,610 as of December 31, 2015. As of December 31, 2015, a loan loss reserve of \$2.1 million was established.

NCP reserves all rights of discretion in deciding whether or not to pursue legal remedies in connection with a default on a loan by any of its borrowing member churches, conferences or other Denominational entities.

Lines of Credit

NCP also issues lines of credit in certain circumstances to member churches, conferences and to certain Denominational entities in order to meet defined cash flow needs of the borrower. A line of credit is a commitment by NCP to lend money to a particular borrower up to the maximum amount allowed on the line. Such lines of credit may be unsecured or secured with collateral owned by the borrower as noted below. Lines of credit are reviewed annually by NCP's Board, which determines the applicable rates and terms for each line. As of December 31, 2017, all such lines of credit bear interest at the prime rate as published from time to time in the *Wall Street Journal* "Money Rates" section (many with a floor of 4.0%), and are typically due on demand.

As of December 31, 2017, NCP had outstanding balances on lines of credit to a member church, conferences, the Church and Denominational entities in the following amounts:

	Borrower	Amount Approved	Amount Drawn 12/31/2017
***	Adelbrook, Cromwell, CT	500,000	300,000

Only the 5-Year Fixed Rate Renewable Certificates, the 30-Month Fixed Rate Renewable Certificates, the IRA Certificates and the HSA Certificates are taken into account for purposes of the Congregational Investment Generation Requirement described under the heading "DESCRIPTION OF NCP'S LENDING ACTIVITIES – Congregational Investment Generation Requirement" herein. The interest rate paid thereon is as indicated in Appendix "B" attached hereto. From time to time, the Board, in its sole discretion, may change the interest rate paid on these Certificates. However, the interest rate on a 5-Year Fixed Rate Renewable Certificate cannot be changed during any five (5) year term, once such Certificate has been issued. A holder of a 5-Year Fixed Rate Renewable Certificate shall be furnished on an annual basis with a current Offering Circular containing NCP's most recent Audited Financial Statements.

NCP's 5-Year Fixed Rate Renewable Certificate is evidenced by a certificate which must be surrendered upon payment of all principal and accrued interest, if any, to the holder thereof. payment and written notice of intention to redeem it is received by NCP from the holder thereof. If an Investor notifies NCP in writing on or prior to the maturity date that the Investor does not elect to extend or roll-over the Certificate, NCP shall promptly repay the principal and interest accrued, if any, thereon. NCP shall send notice of maturity at least thirty (30) days prior to maturity and shall state in said notice any change in interest rate applicable to the next subsequent renewal term. Holders will receive the higher of (i) the interest rate quoted in the renewal notice and (ii) the interest rate in effect upon the date of renewal. Such option must be made in writing to NCP at the time of investment, and may be changed by the Investor at any time upon written notice to NCP. If no notice is given, the Investor will be deemed to have elected to reinvest the interest. Reinvestment of interest is not evidenced by a new certificate. EVENTS OF DEFAULT

Non-payment of a Certificate’s principal and interest payment when due shall constitute a default of NCP, but only as to such Certificate. The holder of a Certificate has no rights of acceleration of payment of a Certificate upon an event of default, but may pursue all available legal and equitable remedies in the event of a default thereunder. In addition, any NCP Investor will be furnished with a current list of all other NCP Investors residing in the state of that Investor upon request and within thirty (30) days of an event of default if such occurs.

REDEMPTION DUE TO A PERSONAL EMERGENCY

Although there is no obligation to redeem Certificates prior to their maturity, it is NCP’s policy and practice to allow early redemption of a Certificate, generally upon representation of a personal or financial emergency of the holder thereof, so long as early redemption does not create a financial hardship to NCP (as determined by NCP). In some cases, approval of the Board of Directors of NCP will be required in accordance with Board policies established in connection with early redemption of Certificates. All interest is paid to the date of redemption and no penalty is assessed. There can be no assurance that NCP will continue such policy in the future, and NCP is not obligated to do so.

INDEPENDENT AUDITORS' REPORT

Board of Directors
National Covenant Properties
Chicago, Illinois

We have audited the accompanying financial statements of National Covenant Properties, which comprise the statements of financial position as of December 31, 2017, 2016 and 2015, and the related statements of activities and cash flows for the three years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of National Covenant Properties as of December 31, 2017, 2016 and 2015, and the changes in its net assets and cash flows for each of the three years then ended in accordance with accounting principles generally accepted in the United States of America.

Notes to Financial Statements
December 31, 2017, 2016 and 2015

1. NATURE OF ORGANIZATION:

National Covenant Properties (NCP), a not-for-profit corporation, is an affiliate of The Evangelical Covenant Church (Church). NCP provides secured and unsecured loans primarily to member churches and Church-affiliated entities for the primary purpose of financing church property acquisitions, construction and additions, and financing certain activities of Church-affiliated entities. The principal source of funds to make these loans is the sale of debt securities by NCP to members of, contributors to, participants in, and affiliates of the Church and its member churches.

NCP is exempt from federal and state income taxes under the provisions of the Internal Revenue Code Section (IRC) 501(c)(3) and applicable state statutes and is not a private foundation under IRC Section 509(a)(1).

2. SIGNIFICANT ACCOUNTING POLICIES:

BASIS OF ACCOUNTING

The financial statements of NCP have been prepared using the accrual basis of accounting, which gives recognition to income and related assets when earned and expenses and related liabilities when incurred. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates. The significant accounting policies followed are described below.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include a checking account and money market funds.

INVESTMENTS

Investments are stated at fair market value with realized and unrealized gains or losses recorded in the statements of activities.

OTHER ASSETS

Other assets consist of furniture and computer equipment purchases in excess of \$1,000 recorded at cost and depreciated over three to seven years and cash value of life insurance.

REAL ESTATE HELD IN WHOLLY OWNED AFFILIATES

NCP operates National Covenant Properties Land Company, LLC and NCP Land Company Minnesota, LLC, wholly owned affiliates, which were created to hold properties held for sale. All real estate held by these LLC's is classified as real estate held for sale and is reported at fair value less estimated selling costs. All real estate held for sale is actively marketed and is expected to be sold as expeditiously as possible. Subsequent gains or losses resulting from the disposition of real estate held for sale are recorded as investment gains or losses in the period realized.

FEES ON LOANS

Loan fees charged by NCP approximate actual costs incurred by NCP for loan processing. Accordingly, such fees are recognized as income in the year of loan origination.

2. SIGNIFICANT ACCOUNTING POLICIES, continued:

FUNCTIONAL ALLOCATION OF EXPENSES

All expenses are recorded when incurred in accordance with the accrual basis of accounting. The costs of providing the various program services and supporting activities have been allocated on a functional basis. For the year ended December 31, 2017, total expenses were \$12,971,006, of which \$8,730,603 were allocated to program expenses and \$4,240,403 to general and administrative expenses. For the year ended December 31, 2016, total expenses were \$12,403,624, of which \$8,771,527 were allocated to program expenses and \$3,632,097 to general and administrative expenses. For the year ended December 31, 2015, total expenses were \$11,913,508, of which \$8,789,514 were allocated to program expenses and \$3,123,994 to general and administrative expenses.

LOANS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL LOANS

Loans receivable are stated at their principal amount outstanding less the related allowance for doubtful accounts. Interest income on loans is accrued and credited to income based on the principal amount outstanding. The accrual of interest income is discontinued when, in management's judgment, the scheduled interest may not be collectible within the stated term of the loan. Interest income is recognized on a cash basis for loans classified as nonaccrual loans, with subsequent payments applied first to interest and fees, if any, and then to principal. Loans classified as nonaccrual loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

The allowance for doubtful accounts is maintained at a level that, in management's judgment, is adequate to absorb possible loan losses. This amount is based upon an analysis of the loan portfolio by management and includes, but is not limited to, the borrower's management, financial condition, cash flow, repayment program, guarantee (if any), and collateral. In addition, the historical experience of NCP and general economic conditions have been considered in management's evaluation of the allowance for possible loan losses. Management has also taken into consideration the potential for national economic conditions to impact the collectability of its loan portfolio in determining the loan loss reserve. This process is based on estimates, and ultimate losses may vary from current estimates. As changes in estimates occur, adjustment to the level of the allowance is recorded in the provision for potential loan losses in the period in which they become known. After NCP has exhausted its remedies with respect to the foreclosure of the real property collateralizing the loan, any remaining balance on the loan will be immediately written off. A loan is considered impaired when, based upon current information and events, it is probable that NCP will be unable to collect all amounts due according to the contractual terms of the loan agreement. Loans are classified as delinquent when payments are 90 or more days overdue whether or not the loan is in default.

Loans to churches which receive financial support from the Church's regional conference initially require the guarantee of that conference and/or of the Church. At December 31, 2017, there were 79 loans totaling \$66,836,598 that were guaranteed by a conference and/or the Church.

NCP evaluates loans for impairment on an individual basis if the loan is more than 90 days delinquent. These loans are then given a specific allowance based on the estimated net realizable value of property serving as collateral. All other loans are evaluated for a loan allowance on a collective basis. At December 31, 2017, all loans were collectively evaluated and no impairment was noted.

The following table presents credit exposure by performance status for the year ended December 31, 2017. Status for performing and nonperforming real estate loans is based on payment activity for the year ended December 31, 2017. Payment activity is reviewed by management on a monthly basis to determine how loans are performing. Loans are considered to be nonperforming when days delinquent is greater than 60 days in the previous month. For each class of loans receivable, the following presents the balance by credit quality indicator:

	Demand	Long-Term	Total

The amount of interest and principal payments owing on the impaired loans was \$217,138. A higher reserve was booked against these loans in order to factor in these circumstances. Included in the allowance for loan losses was \$581,885 that was attributed to the impaired loans. Interest income recognized on these loans during 2016 was \$164,502, of which \$66,928 was recognized after the loans were deemed to be impaired. In 2017, these loans were paid off via the borrower's refinance with an outside lender.

Interest income recognized on this delinquent loan during 2015 was \$13,040. NCP believes that the collateral related to the delinquent loan will be sufficient to repay the loan balance.

The delinquent loan of \$741,697 was less than 1% of NCP's aggregate principal balance of total loans outstanding at December 31, 2015.

7. FAIR VALUE MEASUREMENTS AND FAIR VALUE OF FINANCIAL INSTRUMENTS:

NCP uses appropriate valuation techniques to determine fair value based on inputs available. When available, the Fund measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs were not available. The valuations for each of these levels are determined as follows:

Level 1 - Quoted prices for identical instruments traded in active markets.

Level 2 - Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in inactive markets or model-based valuations where significant assumptions are observable.

Level 3 - Model-based techniques using significant assumptions that are not observable. These unobservable assumptions reflect estimates of assumptions that market participants would use.

The following methods and assumptions were used by NCP to estimate the fair value of each class of financial instruments at December 31, 2017, 2016 and 2015:

Investments - The fair values for governmental bonds, corporate bonds, equity mutual funds and bond funds are determined by reference to quoted market prices and other relevant information generated by market transactions.

Swap options - The fair value of the investment in swap options is the mark-to-market asset resulting from the derivative contracts mentioned in Note 6. They are valued at the net present value of future cash flows attributable to the difference between the contractual variable and fixed rates in the agreements.

8. ADMINISTRATIVE TRANSACTIONS WITH RELATED PARTIES:

Fees are assessed to entities affiliated with the Church, including NCP, in order for the entities to share Church expenses. The Church has defined these expenses as those associated with organization and management of the Church, consulting services and other administrative services. General and administrative expenses on the statements of activities include fees of \$463,342 in 2017, \$459,581 in 2016 and \$452,272 in 2015, for services provided by the Church. NCP also reimburses the Church for expenses incurred by the Church resulting from NCP's tenancy in the Church's headquarters.

NCP provides real estate services to the Church, entities affiliated with the Church and member churches of the Church. In consideration for these services, the Church and affiliated entities compensate NCP. Those compensation payments totaled \$150,000 for each of the years ended December 31, 2017, 2016 and 2015, and are included in other revenues on the statements of activities.

Accrued expenses and other payables includes amounts payable to the Church totaling \$350,584, \$171,038, and \$114,693 for 2017, 2016 and 2015, respectively.

9. CONCENTRATIONS OF CREDIT RISK:

Financial instruments that potentially subject NCP to concentrations of credit risk consist principally of cash and cash equivalents, marketable securities and loans receivable. From time to time NCP may have deposits in excess of federal deposit insurance limits. NCP has not experienced any losses on these accounts and does not believe it is exposed to any significant risk of loss related to these.

Concentrations of credit risk with respect to loans receivable are limited to a certain extent by the secured position of NCP in most instruments, the number of organizations comprising NCP's loans receivable base and their dispersion across geographic areas, and NCP's policy of limiting the maximum loan amount to any one borrower to 25% of total net assets. If the borrower has multiple sites that are not contiguous, the lending limit will not exceed 40% of total net assets. However, NCP may make exceptions to this policy upon such determinations as the borrower's exceptionally strong financial position and growth potential. At December 31, 2017, NCP had one borrower with loans totaling 40% or more of total net assets. As described in Note 1, primarily all of NCP's loans are with member churches, their affiliates and other related organizations of the Church. Loans made by NCP are typically secured by first mortgages and are normally limited to 80% of the aggregate cost or value of the property securing the loan. While NCP may be exposed to credit losses in the event of nonperformance by the above contracting parties, management has established an allowance for potential loan losses, which it believes is adequate to cover any such losses.

A substantial portion of the investment certificates issued by NCP are demand instruments or will be maturing within the next two years. In addition, all demand certificates are payable upon 30 days written notice subject to availability of funds. NCP has insufficient liquid assets to satisfy repayment of this amount assuming all demand certificates would be redeemed at one time. Management anticipates, similar to past history, that a substantial portion of these certificates will be reinvested or rolled over into new certificates with NCP.
